

CATS Assessment of Fire Alarm System Saves Insurers £10,600

Key Facts

- ✓ Deemed beyond repair by incumbent supplier
- ✓ After CATS engineer inspected, it was discovered that there was no insured peril
- ✓ CATS engineer rectified issues with system which saved the insurers £10,600

CATS can assist with all types of fire alarm systems, including panels, sounders, detectors and more.

The Claim

The insured had reported accidental damage to their fire alarm system, which had been deemed BER by their incumbent supplier. CATS were asked to inspect by the insurer.

The Resolution

CATS accredited engineers inspected the equipment at the site and found no signs of insured peril as reported, rectified the issues as part of the inspection and left it fully working. The claim was repudiated, saving the insurers £10,600.
