

Validation and Inspection Success: CATS Accredited Engineers Prevent Overpayment, Saving £2,084

Key Facts

- ✓ CATS were asked to validate and inspect a water damaged fire alarm
- ✓ The CATS consultant identified that the incumbent supplier wasn't certified
- ✓ CATS accredited engineer installed a replacement, saving the insurer £2,084

CATS can assist with all types of fire alarm systems, including panels, sounders, detectors and more.

The Claim

CATS were asked to validate and inspect a water damaged fire alarm system that was confirmed as BER and obsolete.

A CATS accredited engineer found the incumbent supplier was not certified to fit a replacement system and their replacement quotation was excessive.

The Resolution

The system was replaced by CATS saving the insurers £2,084.
