

Insurers save £7250 on three damaged golf buggies through CATS

Key Facts

- ✓ The insured suffered malicious damage to three golf buggies
- ✓ CATS recommended replacement for all three vehicles
- ✓ Claim cash settled with a £7,250 saving

The Claim

The insured had reported malicious damage to three electric EzGo golf buggies. CATS determined that the damage was significant enough that repair would not be an economical option. As the EzGo range no longer provides a direct equivalent to the golf buggies, the nearest current equivalent was suggested as a replacement. The insured agreed on this appropriate alternative.

The Resolution

The insurers opted to cash settle this claim. By involving the CATS team the insurers saved £7,200, equivalent to a 30% saving.

The CATS team can not only assist with golf related technology claims but all types of sporting equipment. Whether its gym machines, bikes or bowling machines, we can help. Instruct us today.
