

Electric Gates Repaired After Incumbent says BER

Key Facts

- ✓ Vehicle damages sliding gates, original installer rights them off
- ✓ After CATS inspected, it was discovered the gates were repairable
- ✓ The damaged gates were repaired through CATS which saved the insurers 87%

CATS can assess, inspect, repair or replace entry/exit gates and barriers for both commercial and domestic properties.

The Claim

The insured reported impact damage to their cantilever sliding gates. CATS were asked to inspect following a submitted quotation for replacement gates from the insured's supplier for £27,140.

CATS accredited engineers inspected the equipment at the site and reported that the gates were repairable for £3,495.

The Resolution

CATS repaired the gates that had suffered damage and saved the insurers 87% (£23,645) on the total amount being claimed for.
