

How CATS Saved Insurers £15,300 on Ultrasound System

Key Facts

- ✓ The insured suffered power surge damage to an ultrasound system
- ✓ CATS provided a repair quote and recommended a cash settlement
- ✓ By involving CATS the insurers saved £15,300

The Claim

The insured had suffered power surge damage to a Logiq E R6 Console. The unit had been inspected by CATS engineer who identified that the unit was repairable. From this, the team recommended that the claim was cash settled based on the repair cost.

The Resolution

The insurers decided to cash settle. For a nominal fee the CATS team were able to save the insurers £15,300, equal to a 42% saving.

CATS can assist with many branches of the health & medical industry including optician equipment, veterinary machines, dentist technology and more. If you have a healthcare technology related claim then instruct CATS today.
